

A REPORT PROGRAM CARRIED OUT BY AFRICKIKO FOUNDATION TO Zion Restoration Orphanage and Less Privileged DOUALA.

OBJECTIVE.

The objective of this program was to provide the basic necessities to the children at the orphanage especially during this pandemic covid-19 to help them fight against the virus.

TARGET.

Children (0-19Years)

We arrived at the Zion Restoration Orphanage and Less Privileged at about 01:30pm. We were received from the junction by the owners of the orphanage Mr Epey Nkongho Joseph and Mrs Kafa Loveline Quipchu (Husband and Wife) accompanied by some children from the orphanage to help carry some of the items we brought along.

We arrived the orphanage at 1:40pm just 10minutes walk from the junction and we were all gathered at the orphanage where Mrs Kafa loveline expressed her joy and happiness receiving us at their home with the children. The joy on her face says was immense and her husband Mr Epey equally added words to appreciate our efforts and gratitude to us for remembering them.

The children at the orphanage were approximately 38 in number, ranging from a new born baby that's about 6months old to the oldest which was 17years. They came from all over Africa such as Congo, Burkina Faso, Chad and Cameroon as well. They live together as one big family and in a God-fearing manner as they are brought up by Mr Epey and wife who are pastors. They are growing up with the fear of God in them and to become responsible children in the society tomorrow. Mr and Mrs Epey are already doing a wonderful job by sending them to school and they had a girl already preparing for her GCE ordinary level examination even though they expressed the difficulties they faced to raised money for the fees but with God on their side they still manage to send them to school at all cost. they equally complained about hospital bills too when the children fall sick. They have difficulties in buying the drugs for the children and they asked if they could get assistance like health insurance to help subdue the bills whenever the children are sick so they could get proper treatment.

Moreover, we met a small girl of age 5years old who was sick and Blaise gave the mother Mrs Kafa a sum of fifteen thousands francs to buy medication for the little girl who was sick.

Later that day, Africkiko foundation brought food and drinks which we shared to all the children in the orphanage including some neighboring kids who were around to join and share with us as we ate with them and shared one or two soft drinks with them, we ate fried rice with chicken and took a bottle of plastic drinks such coke cola, fanta, spirite etc.

Nevertheless, after eating and drinking with the children and the owners of the orphanage, we took group pictures with the children and the items we brought for them. we had a couple of pictures with the children and the founders. We handed over the items we brought to the mother of the house, in

every society, it's always the woman who takes care of the house. Items collected were a bag of rice, groundnut oil 10litres, hand sanitizers, soft drinks, sanitary pads etc.

Finally, after everything was done, the children at the orphanage sang a special request for us which was very touching with their angelic voices to shower praises to us and express gratitude for having us amongst their midst and pray that Almighty God continue to replenish our pockets hundred fold. One of the children from the orphanage eventually prayed for us and all the members present could feel the presence of the Lord with us at the moment she prayed for us all.

We said good bye and left the orphanage around 6:00pm, after a day well spent, we had our little refreshment amongst everyone present at Bonamoussadi carrefour Yoro Jos precisely and separated around 8pm to our various destination.
